Introduction

In today's economic climate, Regulatory authorities, Public & Service Sector organizations face unprecedented pressure-not only to achieve the goals set by governments and meet the expectations of citizen- but also to deliver increased productivity and efficiency. Performance Management is therefore much more than merely telling a person what to do and "policing" them until it is done. Rather, it is an integral part of the manager and the employee's job. BSC A balanced scorecard is a performance metric used in strategic management to identify and improve various internal functions of a business and their resulting external outcomes. It is used to measure and provide feedback to organizations. Data collection is crucial to providing quantitative results, as the information gathered is interpreted by managers and executives, and used to make better decisions .

Programme Objective

- To ensure long-term flexibility and survival, an organization needs to prepare for the future.
- The balanced scorecard managing system "maps an organization's strategic objectives into performance metrics in four perspectives:
